

# Indian Institute of Information Technology Chittoor

Advertisement No.IIITS/2015-16/Construction/REC, dt.10.09.2015

Indian Institute of Information Technology (IIIT) Chittoor is located at Sri City in Andhra Pradesh. It is one of the 20 IIITs established by the Government of India <http://mhrd.gov.in/iiits> These IIITs are envisaged to act as a major catalyst in developing new knowledge domains and boosting the IT industries in the country. Thus, IIITs are of national importance. IIIT Chittoor is one such institute of national importance and is funded by the Central Government (50%), the State Government (35%) and other Industry Partners (15%) under the Public Private Partnership.

The institute is run by the Board of Governors of The IIIT Society. The Board of Governors include representatives of MHRD, GoAP and Industry Partners; eminent people from academia, industry and civil society.

MHRD (GoI) has taken up the initiative to setup 20 new IIITs to develop New Knowledge in Information Technology and to provide manpower of Global Standards for the Information Technology and Allied Fields.

The Institute is currently operating from one section of the IFMR institute located in at Sri City. The Institute's own state-of-art campus, spread over an area of 77 acres is under construction.

The institute is strategically located in Sri City which is fast emerging as a one-of-its kind integrated Smart Business City in India; it is already home to 80 international companies from 25 countries and many more are poised to set up industries here. Some of the major corporations include Isuzu, Alstom, Kobelco, Pepsi, Mondelez, Colgate, Kellogs, West Pharma and Lavazza.

**IIIT is looking for the project management consultancies for the following scope and team requirements.**

**Scope of services:** Project Management services for 6 months duration with two member team i.e Project lead and project coordinator for coordinating the ongoing design development and site coordination.

The Project lead must have 10 years of relevant industry experience to coordinate the ongoing pre/post construction management including but not limited to design review, document control, schedule control, Value engineering etc.

The project coordinator to coordinate the ongoing construction management including but not limited to site monitoring, site document control, site schedule control, etc.
